"The Wandering Jew"

The Greatest Motion Picture since Birth of a Nation.

JERUSALEM.
1900 years ago Jerusalem was the cradle of civilization, Jerusalem was the centre of the famous World of Passion, Jerusalem was the capital of the mighty World of Flesh, Christian Egyptian, Mongolian, Negro, Semite and Turk—black flesh, white flesh, yellow—Human Flesh of all races, men and women were sold on the market of Jerusalem 1900 years ago.

Oswald Stoll presents a motion picture absolutely without equal, without precedent, and without parallel in the motion picture field of today. Spectacles that amaze, Drama that engrosses, Passion that stupifies. Tottling Empires and crumbling civilizations produced at a cost of \$1,000,000, the greatest thing ever seen in film productions.

THIS IS A GUARANTEED ATTRACTION.

Next Week Charlie Chaplin in
"The Circus."

Note. We regret that the picture "Speedy" had to be transferred to Nov. 10-17.

LOCAL AND GENERAL

Tuesday night of this week established a record in the way of cold for the season.

Mumps, which placed quite a large number of residents under modified quarantine for a time, are disappearing.

Mr. and Mrs. A. W. Jopling and Mr. and Mrs. Dr. Heil attended the play, "Rose Marie," at Calgary on Wednesday night.

Mrs. H. E. Farnhall, of Richmond, Indiana, is here looking after her lands and visiting with W. H. Bowman's.

Some splendid specimens of mallard ducks have been secured during the past week, the colors on these birds being magnificent.

The Family Herald and Weekly Star with its wonderful improvements is now regarded as the great Agricultural Paper of Canada and the Family Circle's best magazine.

Bills are out announcing a clearing sale of Mrs. Theriault's stock of ladies' goods. Very attractive prices are quoted and should move the entire stock in a short time.

The last of the threshing and combining seems to have disappeared during the past week, anything left being considered not worth cutting, and there is very little of this.

S. Path has rented his farm and is moving into Calgary. In consequence he is holding an auction sale of his farm equipment on Wednesday, Nov. 20th. Details appear on another page of this issue.

Owing to their inability to obtain cars to ship out the wheat many of the elevators are dispensing with their second men, who otherwise would have been employed for the greater part of the winter.

A new Cadenza model Orthophonic Victrola has been installed in the picture show and is meeting with high approval from patrons. It is a magnificent machine and supplies music for any purpose.

J. T. Stephenson has purchased the residence formerly occupied by H. Higgins from Mrs. P. M. Patterson and moved into the premises on Monday. Iri Duto has moved into the residence vacated by Mr. Stephenson.

It is an ill wind that blows nobody good. Damaged crops will lead to many planned trips being abandoned and the bulk of the population of the district will remain at home. Things should be much livelier here in consequence.

On November 13th W. F. Bozarth, who is quitting farming for the present, is offering his entire farm equipment for sale by auction. Particulars will be found on another page of this issue. A feature of this sale will be the serving of lunch by the Women's Institute.

The new school is rapidly nearing the time when it will be ready for occupation, a situation that will be decidedly popular with both teachers and pupils. With this new building the Champion Consolidated School will be one of the best housed in the country.

Preparations for winter are in evidence on every hand. Machinery is being stored, storm sash pulled in position and buildings being banked up. Residents do not propose being caught unawares by any such weather as prevailed last year in the beginning of winter.

Sietto Bros. are holding an auction sale on Wednesday, November 7th, commencing at 10:30 in the forenoon. The offerings include 24 farm horses, all kinds of farm implements and machinery and a quantity of household effects. See Advt. for particulars, elsewhere in this issue.

A turkey shoot will be held at O. C. Dittor's farm on Saturday, November 3rd, commencing at 12 o'clock. A free lunch will be served to those attending. Participants are requested to bring their own rifles. There will be all kinds of turkeys for competition.

A police raid in charge of Sgt. Hildon of Claresholm resulted in the arrest of E. Crompton for having liquor in other than a private dwelling and also for having liquor without a permit. At Vulcan on Monday he was fined \$25.00 on each charge, and accompanying costs raised the penalty to \$26.00. A poker party was also raided and the participants rounded up in the new village cop while the policemen completed their raid. They appeared at Vulcan on Monday but their case was adjourned until Thursday.

New Agriculture Text Distributed

A new text book on agriculture is now being distributed by the school book branch of the Department of Education for use in the high schools of the province. It bears the title "Canadian Agriculture For High Schools," and is authorized as a text for the higher grades, the elementary grades already having a text on the subject. The authors are a number of the members of the faculty of agriculture at the University of Alberta, and the book is particularly concerned with and adapted to the conditions of Alberta farm life and work. Alberta is the first province in the Dominion to have an advanced text of this description.

Work Continues On Southern Highways

Recent contracts for road building awarded by the Department of Public Works include that to H. G. McDonald for the graveling on the Lethbridge-Macled highway of 25 miles, and to the Western Construction Company for completing the grading of the Crow's Nest road to the British Columbia boundary. Work on the graveling will begin at once and a start will be made very shortly with the Crow's Nest contract, the intention being to continue the work through the winter.

Alberta Trade With United States Increased

Trade with the United States for the Province of Alberta during the quarter-year ending September 30, 1928, reached \$1,800,790, an increase of \$110,200 over the corresponding period of 1927, according to the quarterly report of U. S. Consul S. C. Reat of Calgary. The total declared exports from the Calgary district for this period in 1927 were valued at \$400,745 and in the same months of 1928 goods to the declared value of \$645,674 were exported. The principal increase was in the exports of cattle. During July, August and September, 1927, 3,480 head of cattle valued at \$195,903 reached the American markets while in the corresponding months of 1928 a total of 5,579 head of cattle valued at \$312,416 were exported.

The chief exports from the Calgary consular district were: cattle, number 5,579, value \$312,416; fanners and feeds, 3,870 tons, value \$116,481; wool in grease, 213,852 pounds, value \$1,707; lumber, 901,140 feet, value \$2,250. From the Edmonton consular district the principal exports were: fish, 1,055,222 pounds, value \$103,918; meat, 930,870 pounds, value \$165,530; furs, number 30,104, value \$142,860; cattle, number 941, value \$50,723. A marked decrease is shown in the exports from the Lethbridge consular district, for which reduced shipments of the United States authorities are responsible. This district exported goods to the declared value of \$492,268, the principal items being petroleum, flour, sugar and coal.

University Steers Ready For Eastern Shows

As in previous years a number of steers fitted for the show ring by the Department of Animal Husbandry at the University of Alberta, will again compete for honours at the Toronto Royal Show and the Chicago International. Nineteen choice animals including representatives of the three principal beef breeds will be sent East this year where it is hoped they will equal the high mark set by Alberta entries in former years.

Included in the lot are animals contributed to the University for this purpose by the following Alberta breeders: W. M. Parslow, Calgary; Wm. Sharp, Lacombe; J. L. Walters, Clive; P. Suddaby, Lavo; C. H. Richardson, Bonny; W. McNaught, Lyalta; W. D. MacDonald, Granger and O. J. Granlin, Stately, the remaining eleven head having been bred on the University Farm. Arrangements are being made for an advance showing of these cattle at the University barns 2 o'clock Wednesday afternoon, November 7, when all livestock breeders and others interested are invited to attend.

Alberta Wheat Yield Average Reduced

On the basis of returns received by the Department of Agriculture from threshers in all sections of the province, it is estimated that the Alberta wheat crop for 1928 will average approximately twenty bushels per acre. Although this figure is some seven bushels lower than the phenomenal returns in 1927, it is over two bushels above the ten year average for the wheat yield for the province. Further threshers' returns and reports of grain inspectors indicate that the damage to the crop as a result of the frost is more serious than was anticipated when earlier estimates were made.

He's Coming

Meet the representative of the "World's Largest One-Price Tailoring Organization" here on Wednesday, Nov. 14 1928.

He will help you choose the right material for your new suit. There are over 200 patterns and weaves to choose from. All the very latest fabrics imported direct from the leading markets of the world. Everything tailored to the individual measure of the customer at one standard price, \$27

AUCTION SALE!

Having received instructions from the undersigned, who has rented his farm and is leaving the district, I will offer for sale by Public Auction on Section 32-15-24, 1 mile South and 5 miles West of Champion, on the Fireguard Road, on

WEDNESDAY, NOVEMBER 14th

Commencing at 11.00 O'clock, the following:

Thirteen Head of Good Farm Horses

Two Black Mares 8 and 9 years old
Two Bay Horses 8 and 10 years
One Bay Mare 6 years
One Gray Mare 6 years

One Gray Mare 10 years old
One Grey Horse 10 years old
Two Bay Mares 9 and 10 years old
One Iron Grey Colt, 5 years
One Bay Mare 6 years

Milch Cow 7 yrs. Jersey Milch Cow. One Calf. 50 Chickens.

Farm Implements and Machinery

2 P. & O. 14 in. Gang Plows
Cockshutt 12 ft. Cultivator
Wooden Harrow
Iron Harrow
2 Harrow Carts
Hay Rake
Complete Blacksmith Outfit

McCormick Mower
Grain Tank
2 Wagons with Boxes
Democrat
Buggy
2 Iron-Wheel Wagons
Bundle Rack

12 in. Feed Grinder with Belt
DeLaval 1 1-2 h.p. Engine
8 Sets Good Work Harness
Single Harness
Eveners, Shovels, Forks, Crowbar, Barrels, and a bunch of Kindling Wood, etc.

Household Effects, Etc.

Diningroom Table and 6 Chairs, Diningroom Table extends to 12 feet, Couch, 3 Beds complete with good Spring Mattresses, 2 Dressers, Child's Crib, 2 small Tables, 2 Rocking Chairs, 2 big Arm Chairs, Kitchen Table, 3 Kitchen Chairs, Music Cabinet, Writing Desk, Lighter Day Range, Round Oak Range, Laundry Stove, 2 Heaters, Churns, New DeLaval Separator, Dishes and other articles.

TERMS: CASH.

Legal advertisements, 15 cents per line for first insertion, 12 cents per line for each subsequent insertion.
Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50 cents for first insertion, 25 cents for each subsequent insertion.
Commercial rates on application.

THURSDAY, Nov. 3, 1928

NOTES AND COMMENT.

Owners and operators of threshing machines and combine harvesters are being reminded at this time by the Department of Agriculture that they are required to furnish a return at the end of the threshing season showing the number of acres and number of bushels of the various kinds of grain threshed. Special forms for this purpose are supplied each thresherman at the time he secures the license to operate his machine for the season. It should be pointed out that whether the owner of the machine threshes only his own crop or does custom work in the neighborhood, he is required to furnish this information, which is invaluable to the Department in compiling agricultural statistics for the year.

A great many farmers in the Western and Central United States are greatly interested in the opportunities for settlement in Alberta, according to D. A. McCannel, Provincial

Publicity Commissioner, who returned recently from visiting a number of fairs in this territory. An exhibit depicting the agricultural and other natural products of Alberta was shown at eleven State and County fairs in Minnesota, Wisconsin, Iowa, Missouri and Kansas and wherever this was shown it attracted a great deal of interest. Canadian Government Agents in this territory report that a great majority of the inquiries they are receiving from prospective emigrants to Canada are seeking information about Alberta.

In order to extend the scope of the work being done by the Women's Home Bureau Branch of the Department of Agriculture, Miss Romanchuk of Winnipeg has been appointed to work in rural communities in the Vegreville district. Miss Romanchuk who by training is well suited to this work, will conduct a survey of non-English speaking communities. When not engaged in field work, she will be available at the offices of the District Agriculturalist at Vegreville.

Alberta leads among the prairie provinces in the value of manufactured products for the year 1926 according to the report just issued by the Dominion Bureau of Statistics. Alberta industries in 1926 numbered 740 with 10,229 employees, a capital of \$72,488,286 and products valued at \$83,425,031. The number of established industries increased by 15 and the capital by \$8,300,000 during the year. The products of Manitoba manufacturing plants in 1926 is placed at \$57,717,923 and those of Saskatchewan at \$47,108,097.

Forty new school districts

have been established in Alberta this year, according to the Department of Education, bringing the total of rural districts up to approximately 3,000. Over 5,000 school rooms are now being operated including city, town and rural schools. School expansion has been particularly noticeable in the northern part of the province, three new districts having been formed in the Battle River Prairie district north of Peace River. Next year is expected to see many further additions made to the number of schools in the province.

Snow fencing is to be done along some of the main highways in the province in order to keep the highways clear of snow during the winter months. It is announced by O. L. McPherson, Minister of Public Works, that four carloads of special fencing material are now on their way from Eastern manufacturers and on arrival the work of erecting fences will begin under the direction of the Department of Public Works. The sections to be covered will comprise a total of about 12 miles scattered along

the most heavily travelled main roads in various parts of the province.

Chrysler-Plymouth

At Last! A New Car Whose Like-In Style, Performance and Value--You Never Have Seen Before

No one but Walter P. Chrysler and his great engineering organization ever attempted such a car at such a price.

Plymouth is the amazing realization of the Chrysler vision of a low-priced car embodying the beauty, the quality, the durability and the value of the finest cars.

Abundance of power from the new Silver Dome high compression engine which uses any gasoline. Characteristic Chrysler speed, power and pickup.

Luxurious comfort over rough stretches that many \$2000 and \$3000 cars can well envy. Supreme safety of internal expanding hydraulic 4-wheel brakes,

efficient in any weather—the only car near its price with such equipment.

Full sized bodies with ample seating capacity for adult passengers. Fine, deep upholstery. Swagger body lines in the new vogue created by Chrysler—new slender profile radiator—new bowl shaped lamps—new type air wing fenders.

Plugged dependability insuring years of faithful service with exceptional freedom from mechanical trouble—the result of Chrysler Standardized Quality in fine materials and precision manufacture.

Ride in the Plymouth - Drive the Plymouth
the most astonishing performance, quality, style and value the world has ever known!

Chal. Matlock - Dealer.

RAIL ROUTE, PRAIRIES TO COAST VIA CROW, IN-SIGHT—LAY RAILS AROUND KOOTENAY

Vancouver, B. C., Oct. 31.—A Kamloops special to the Province states:

"It is understood that the C. P. R. will extend its present line from Proctor, on the West Arm of Kootenay lake to connect with Kootenay Landing at an early date. Survey of a proposed route along the lake shore has been completed, but engineers are now on the ground to make a final decision on the route to be utilized. It has been suggested that the line be constructed away from the lake shore and be extended south easterly from Proctor.

Mines Development
"Decision to close the gap between Proctor and Kootenay Landing is due to mining development in the area. At present time ore shipped from Kimberley and other Kootenay points to Trail travels from Kootenay Landing to Proctor on car barges. The process of loading the ore on the barges, travelling up the lake and unloading at Proctor consumed much time.

It is believed that many hours can be saved in the shipment of ore to Trail by an all-rail route. It is also believed that an all-rail route from the prairies to Vancouver, via the Crow's Nest Pass will result in greatly increased grain shipments to the Pacific port via the Kettle Valley line.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—HARDENING OF THE ARTERIES

The arteries are normally elastic. Control of blood pressure is exercised, first of all, by the heart, or pump, through the force and frequency of its beat; and, secondly, by the arteries, through their expansion or contraction, which abilities they possess as a result of their elasticity. Some of the arteries are

very large, such as those in the abdomen, and if they relax, they are capable of holding all the blood in the body. Sometimes they do this, with the result that the person faints because all the blood is drained away from the brain.

As we get older, the elasticity of the arteries is gradually lost. It is an age-old fact, that a man is as old as his arteries. When the loss of elasticity is rapid, premature aging results. Along with the loss of elasticity, there is a thickening and hardening of the walls of the arteries. They become more or less brittle, and break comparatively easily; the calibre becomes smaller, on account of the thickening, and this tends to raise the blood pressure. The result is a thickened and weakened artery with a blood pressure above normal.

We do not know how hardening of the arteries can be completely controlled. We do know, however, that in many cases, we can check the development of the condition. We know that the absorption of poisons from diseased teeth, tonsils or other parts of the body must be stopped. We know that overstrain, both physical and mental, must be avoided. We know that the condition of all systems of the body must be watched and remedied when necessary, because if one part of the body is diseased or is not functioning properly, strain is thrown thereby upon all the other parts, affecting the arteries and other parts of the arterial system.

Questions concerning health, addressed to the Canadian Medical Association, 10 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

SQUIRES LEADING ELECTION—FORMER NEWFOUNDLAND PREMIER CAPTURES FIRST TWO SEATS TO REPORT

St. Johns, Nfld., Oct. 30.—The opposition party of Sir Richard Squires, former premier, had a

majority of three members over the United Newfoundland, or government party, led by Hon. P. C. Alderdice. It was revealed this morning by complete results of six of the 27 districts in which polling took place yesterday.

H. N. Burt, minister of posts, was defeated in Port De Grave, and W. J. Walsh, minister of agriculture, went down to defeat in Harbor Maund.

St. Johns, Newfoundland, Oct. 30.—Early returns from the general election held yesterday showed that the opposition under Sir Richard Squires had captured the first two seats in the Newfoundland legislature. In Belle Isle from Commander Howley, government, and Robert Smith taking Port De Grave district from Jos. F. Cantwell, independent, and H. N. Burt, government, postmaster-general in Hon. P. C. Alderdice's cabinet.

The final vote:
Belle Isle: Greene, opposition, 1,069; Howley, government, 582.
Port De Grave: Smith, opposition, 1,251; Cantwell, independent, 530; Burt, government, 331.

There are 38 seats still to be heard from. Owing to poor conditions and delays in gathering ballot boxes, it is expected that a day or two will pass before the make-up of the new house is known.

SELECTING THE BREEDING MALE

It may seem a little early in the season, to talk of selecting next spring's breeders, but this is of such importance that it must be borne in mind early in the season, if best results are to be secured.

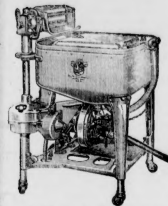

Early in the growing season the poultryman should have marked "for the block" all those chickens that had shown the character for slow feathering or any constitutional feathering or any constitutional weakness. There will thus be reserved for brooding, only cockerels from high laying dams that have laid large eggs.

This latter is of great importance as there is unquestionably a tendency to diminution in the size of the egg, where selection has been followed for high production, without due regard to the quality of the egg. During the latter part of the summer and early fall it will have been noticed that there were some cockerels that had developed sexually very early. These cockerels almost invariably finish up as "penes." In other words, although they look large early in the season, they become set in their growth, and are unable to make birds of normal size at maturity. Cockerels of that kind should be retained as breeders, as their offspring will have a tendency to mature in the same manner. They will lay early, before they reach proper body growth, and consequently lay small eggs throughout life.

To summarize, the breeding male should be the son of a high laying large egg hen. He should be well grown, of good size for his breed, and above all should be vigorous.

Many Try to Imitate—But The Cannot Duplicate

Because the wonderful washing principle of the Maytag Gyrofoam is Covered and Protected by Patents.

We feel proud of the Maytag, especially when salesmen who sell other good machines admit candidly that the Maytag Washer stands in a class by itself.

1. The heavy cast aluminum tub will last a lifetime.
2. It retains the heat for the entire washing.
3. It will not injure the finest fabrics.
4. The dirt settles to the bottom and is not churned up in your clothes.
5. Fastest Washer on the market. Washes clean in from 3 to 7 minutes.
6. Machine adjusted to your height.

7. New improved wringer and automatic drain.
8. New improved motor, easy to start and simple to adjust.
9. Takes up 25 square inches floor space—most compact Washer on the market.

We judge machines by performance. Ask the owner of a Maytag and let your good judgment rule your decision.

New Low Prices on Congoleums

Just a glance at the prices will convince you of the low cost of covering your floors

6x9, 7-1-2x9, 9x10-1-2, 9x12, 9x13-1-2, 9x15

When covering your floor don't miss our display where you get the real effect of color and design.

W. C. HOSKINS

While vigor may be denoted in every part of the bird, in the broad back, the well set legs and general action, and in the nervous force, the paramount requirement in an egg breeding male, is indicated by the bright, prominent, piercing eye set in a clean cut face.

This is the kind of male that will give results.

WHEAT JUMPS THREE CENTS IN WINNIPEG

Winnipeg, Oct. 27.—Prices on the local wheat market today started a rapid advance in sympathy with the Chicago wheat market which was reported higher as the result of Herbert Hoover's announcement that he would call a special session of congress if elected to consider farm relief. Orders poured into the local market from the south and from the country and commission houses.

Spreaders operated in all months and the result was the biggest and broadest trade seen locally any day this month. Net gains for the day amounted to three cents to 3 1/2 cents. The October futures at one time soared four cents over Friday's close, but declined fractionally.

MILLION CITIZENS BRITISH EMPIRE GAVE THEIR LIVES—CASUALTIES SUSTAINED IN GREAT WAR AS REPORTED BY COMMISSION

Ottawa, Oct. 23.—The number of death casualties sustained by the British Empire during the war was 1,010,882, says the 1925 annual report of the imperial war graves commission, distributed as follows: United Kingdom, 705,457; India Empire, 62,813; Canada, 58,513; Australia, 59,540; New Zealand, 16,729; South Africa, 71,139; Newfoundland, 1335, and other British possessions 50,573.

In France and Belgium 739,447 men lost their lives, while East Africa had the next largest casualty list with 66,585. In Mesopotamia 60,489 British soldiers were killed; in the Dardanelles 41,964; in Egypt and Palestine 24,301; in Macedonia 10,700; Russia and other theatres of war 10,659; Italy 2167; lost at sea 49,252 while in places not stated in the war office returns 43,288.

MIXING OF WHEAT TO BE

PROBED—PREMIER GARDINER OF SASKATCHEWAN ANNOUNCES APPOINTMENT OF INVESTIGATING BODY

Regina, Oct. 31.—Appointment of a commission to investigate the grain trade and secure the facts regarding the effect of the mixing of grain at the terminals is planned by the Saskatchewan government. Premier J. G. Gardiner announced last night.

"In view of the widespread dissatisfaction with the grading of wheat and the repeated reports to the effect that mixing at terminals has resulted in the lowering of the standard of the Canadian wheat certificate in Europe," said Premier Gardiner, "The Saskatchewan government is considering the appointment of three members over the United Newfoundland, or government party, led by Hon. P. C. Alderdice. It was revealed this morning by complete results of six of the 27 districts in which polling took place yesterday.

ment of a commission to conduct a thorough investigation into the grain trade."

COAL RATE HEARING SET FOR NOVEMBER 6

Ottawa, Oct. 25.—A hearing will be given by the board of railway commissioners in Ottawa on November 6 to representations of the transportation and coal companies interested in the recent test that shipments of coal from Alberta to Ontario, and from the Nova Scotia and New Brunswick coal fields to St. Lawrence river points. The actual schedule of costs entailed by the experiments will be set by the commissioners as required by the order-in-council which authorized the trial shipments. Based upon these and the evidence adduced before them, the board will make its report to parliament.

Last winter the government authorized experiments to last over a period of three months per annum for three years whereby Alberta coal would be transported to Ontario at a flat rate, stipulating that any difference in cost between the figure set and the actual expenses would be refunded if necessary to the railway companies. The duty of determining this was placed on the board of railway commissioners who were required to secure from all concerned particulars of costs.

The period of both of these tests has expired for the first year, but the experiments will be continued for two more years as required by the order-in-council.

PONKA PROBE IS UNDER WAY

Edmonton, Oct. 29.—Dr. C. M. Blackie and Dr. C. B. Parrar, who have been engaged by the provincial government to conduct an inquiry into the mental hospitals have already made a good beginning in their work. They are taking up the Ponka institution first and are going down to it from Edmonton each

day for the purpose of examining into its management and administration. It is not known how long their investigation is likely to take. Hon. Geo. Hoadley, minister of health, says that the two doctor commissioners have been given an absolute free hand to conduct the inquiry as they see best. They have their own secretary and are planning and carrying out their program as they themselves decide, with the government interested only in getting their final report. The Red Deer and other institutions are to be included with Ponka in the field of investigation.

HIS BUSINESS

"My landlord is one of the most curious men I have ever met."
"What makes you think so?"
"He's always asking when I am going to pay the rent."

Loose Leaves, Statements, Bill Heads, etc. or any other forms desirable in your business may be had at the Chronicle Office.

CANADIAN WESTINGHOUSE

Vestinghouse Radio Suits Canadian Conditions

The Radio Set that lacks in sensitivity is useless in many parts of Canada.

In the Westinghouse Receivers sensitivity has been developed to the full possibilities of tube Westinghouse Models have power in abundance—reserve power to bring in the very distant stations with clarity and reasonable volume.

Extraordinary sensitivity is the result of the combined laboratory engineering of Westinghouse Radio and Radiotron Engineers to produce the perfect radio receiver for Canadian conditions.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is **Phillips' Milk of Magnesia**. It has remained standard with physicians for 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer when you learn how quickly, how pleasantly this premier method acts. Please let it show you now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

CHAPTER IV.—Continued.

"Pretty near got 'im 'til that time, Donnie!" cried Andy gleefully. "If you so get 'im to lift 'is jaw off 'is shoulder, send in your right!" Andy's hands were shaking with excitement, while Donnie was cool and collected. "Let me go after him, Andy," he begged. "I can whip him at his own game."

"No, not!" admonished Andy, "keep on as you are. Don't try to swap punches with 'im!" Garriau's seconds were working over him feverishly. Pursued before over the heavily-breathing champion, his evil face sick with apprehension.

"What's I tell you?" he exclaimed. "They've stuck a ring in on us, dat feller ain't no amochor! If he beats you we're both nuts! Foul him da round, for de—!" he finished with the savage oath.

At the beginning of the third round Garriau charged. Donnie's adversary like a mad bull. Donnie easily stepped him and he plunged into the ropes. As he rebounded, Donnie landed a left and dashed safely away without reprisal.

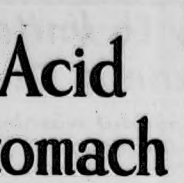

"You can do pretty footwork," snarled the champion with a look of Simian ferocity. "But I'll get you, you—!" There followed a burst of wild cunning. He tried to rush Donnie to the ropes, feinted for the wind, and let loose a powerful right for the jaw. Paying no attention to the feint, Donnie ducked the blow and countered, shot his left to his opponent's mid-section. The champion grunted aloud, fell into clinch, and hung on grimly. The referee pried

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million houses have never without it. If there are children in your family, there's almost daily need of its comfort. And any night, may find you very thankful there's a bottle in the house. Just a few drops of this little colic or constipation is relieved, or diarrhea checked, or the baby's bowels, by a baby remedy meant for young folks. Castoria is meant for the only thing you have ever heard of doctors advise giving to infants. Stronger medicine are dangerous to a baby's health, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It will spare you a sleepless anxious night. It is always ready, always safe to use; in emergencies or for everyday ailments. Any hour of the day or night that baby becomes fretful, or sick, or fussy, or has never more popular with mothers than it is today. Every druggist uses it.

WORLD HAPPENINGS BRIEFLY TOLD

The radio audience of the United States is 41,535,496, according to a survey made public by the National Broadcasting Company.

An airport for Halifax to be equipped by the government is planned as a result of the visit of Major Tudhope, inspector of air routes for the Department of Civil Aviation.

The small one-room building, formerly used as an office by Luther Burbank, plant wizard, will be taken to Detroit as an exhibit in the Ford historical museum.

A movement is now under way in Turkey to abolish the title of "Pasha." Originally a military honor, the title is now granted to persons of high rank.

More than 7,000 pieces of mail have been received at the New York post office for mailing with the Graf Zeppelin on its return flight. The fee is \$1 for letters, and fifty cents for postcards.

Leong Ying, Chinese awaiting execution at San Quentin prison for the murder of ten of his countrymen in the rice fields near Fairfield, 20-lono County, was found dead in his cell in condemned row.

There will be no changes in the Ontario liquor control act at the next session of the legislature, Hon. W. H. Prior, attorney-general, declared, commenting on reports that the act would be amended.

The first regular through air mail from White Horse to Dawson left White Horse recently. Captain P. G. Stephens hopped off with the Fairchild plane now in the service of the Canadian and Picking Royal Mail Line, with 650 pounds of first class mail for Dawson.

A Wonderful Chance

Minister: I wish to announce that on Wednesday evening, the Ladies' Aid will have a rummage sale. This is a chance for all the ladies of the congregation to get rid of anything that is not worth keeping, but is too good to be thrown away. Don't forget to bring your husbands.

Man (just required, to counsel): "Thanks very much. What on earth should I have done without you?" Counsel: "About five years."

Monahan was an independent politician for 80 years until the reigning prince was deposed by the French Revolution.

Farm Booklets

A wealth of information for farmers and housewives is offered free by the Dominion Department of Agriculture. Write for what you want post free.

"Poultry Feeds and Feeding" gives the latest and best methods of feeding chickens, turkeys, ducks, and geese for market. No charge. Use the coupon.

Free Index Book

For convenience in filing the many Agricultural Department Booklets available to farmers and housewives, the Publications Index Book is issued free for the asking.

Factories On the Prairie

Western Canada Becoming An Attractive Field For Industrial Enterprise

Factories are beginning to dot the prairie of Western Canada. The process of industrialization which has gone on in other lands is noticeable in Manitoba, Saskatchewan, and Alberta. In these provinces, usually regarded as purely agricultural, there are now 2,210 factories, with an invested capital of \$253,557,270. The employees number 36,436, and the annual wage bill is \$46,170,949, and the value of manufactured products \$163,252,180.

Manitoba leads the three prairie provinces in the volume of its manufacturing industry, with an annual output of \$122,718,452. Alberta follows with \$83,425,631, and Saskatchewan is third with \$47,108,097.

Flour mills contribute a large share of the total production, with an annual value of \$51,113,136. Slaughtering and meat packing follow with \$33,000,850. Butter and cheese account for \$23,432,375. These industries are the natural outcome of farm production. More remarkable are items like these: Railway rolling stock, \$10,282,727; electric light and power, \$12,862,185; bays, cotton and jute, \$5,077,484; petroleum products, \$8,424,434.

With increasing prosperity and industrial progress, the future of Western Canada, as the figures disclose, is becoming an attractive field for industrial enterprise.

Prove It For Yourself
Write down the number of your living brothers and sisters. Multiply it by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply the result by ten. Add the number of dead brothers and sisters. Subtract one hundred and fifty from the result. The right figure will be the number of deaths, the middle figure the number of living sisters, and the left hand figures the number of living brothers.

He—'I've come to a conclusion. She—What is it?
"I realized today that I have been a bachelor for 38 years, and—"
"Oh, Jack, this is—"
"And I decided I'd had a jolly good time and that I'd kept it on."

SUNDAY SCHOOL LESSON

NOVEMBER 4

WORLD'S TEMPERANCE SUNDAY

Golden Text: "Love worketh no ill to his neighbor; love therefore is the fulfillment of the law." Romans 13:10.

Lesson: Romans 13:1-14.

Devotional Reading: Psalm 15.

Explanations and Comments

Obedience To Civil Authority—A Christian Duty, versus 1-7.—"Is it lawful to give tribute to Caesar, or not?" was the burning question which the Pharisees brought to Jesus, who recall how He answered, "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." A great part of the Jews were always questioning the lawfulness of paying taxes and of recognizing the authority of the Roman Government. The Jews of Rome had been especially turbulent, and of this Paul often boasted many accounts from Priscilla and Aquila, who had been forced to leave Rome on account of the trouble. In writing to the Romans, therefore, Paul was naturally led to take up the question of the Christian's relation to the civil authority.

"Let every soul be in subjection to higher powers—those in authority, civil rulers be they called, and then by means of two clauses, one negative and one positive, he asserted that the fact of the authority was sufficient to give it the right to be obeyed. He argued that it was ordained of God.

The Roman Empire maintained law and order, protected life and property, and was on the whole, as Paul says, beneficent. Nero, the reigning emperor, was, it is true, dissolute and cruel, but he was not a tyrant. He was not a persecutor of Christians. He had been put in confinement for some time without trial, he wrote to Timothy, 1 Tim. 2:1-2. "I exhort therefore, first of all, that supplications, prayers, intercessions, thanksgivings, be made for all men; for kings, and for all that are in high places, that we may lead a tranquil and quiet life in all godliness and gravity."

"If our laws are not Christian, then let us be ready to make them so." If those in authority do not represent Christian ideals, we are to deny authority to them. Legislators and governors whose ideals are Christian, however, are to be obeyed. We are more fortunate than those to whom the apostle says, "Obey the powers that be, for the laws which are to be enacted and the execution thereof."—Guthrie's Bible.

Recipes For This Week

(By Betty Barclay)

SIRLOIN AND BACON SURPRISE

- 1 cup bread crumbs.
- 1/2 cup evaporated milk diluted with 1/2 cup water.
- 1 egg.
- 1 lb. chopped sirloin steak.
- 2 tablespoons lemon juice.
- 1 teaspoon salt.
- 1-3 cup grated cheese.
- 1 tablespoon chopped green pepper.
- 2 tablespoons chopped green pepper.
- 6 green olives.

Bacon slices.
Soak bread in diluted milk five minutes. Add slightly beaten egg, then mix all together. Form into balls. Roll each in a slice of bacon and bake in a moderate oven half an hour. Yield: 5 servings.

ROLLED FRUIT WAFERS

- 1/2 cup butter.
- 1 cup sugar.
- Grated rind 1 orange.
- 1 teaspoon soda.
- 1 tablespoon cold water.
- 1/2 cup orange juice.
- 2 cups flour.

Cream butter; gradually add sugar and orange rind, beating until light; dissolve soda in cold water; add to orange juice, then add, alternately with flour, to first mixture. Spread mixture on well-buttered sheet in the thinnest possible layer, and bake in a moderate oven. When baked, cut in squares; quickly roll each square, while hot, over handle of a wooden spoon, and arrange on a dolly-covered plate.

Importing Fever Potatoes

According to statistics from Washington, Canada's importations of American potatoes have declined from 919,785 bushels in 1924, to 479,960 bushels in 1927, owing largely to the increasing production of potatoes in the Dominion.

Conveys Mail Underground

The railway that runs beneath London, a distance of six and a half miles, and conveys letters and parcels between Whitechapel and Paddington, gives a service of about 800 journeys a day at an average of 20 miles an hour.

CUTICURA

Promotes Loveliness Of Skin And Hair

Daily use of the Soap, assisted by the Ointment when required, keeps the skin fresh and healthy, and the hair healthy and glossy. They are ideal for the toilet, as is also the smooth, cooling, fragrant Cuticura Talcum.

Apply Rub Free To Face, Arms, Chest, Back, Neck, Feet, Hands, Nails, Cuticura Shaving Stick Etc.

Price 25c per box, 50c per box, 1.00 per box.

ONE-DISH DINNER

- In many families it is a problem to serve up a simple meal on one course. Here is a dish that will please a family of six, besides having the indispensable elements of nourishment:
- 2 cups cooked macaroni.
- 1 cup cooked carrots (diced).
- 2 tablespoons grated onion.
- 2 tablespoons chopped parsley.
- 2 tablespoons chopped fresh red pepper.
- 1 cup chopped ham.
- 6 tablespoons buttered crumbs.
- 1 cup Borden's St. Charles Milk.
- 1 cup water.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 1 teaspoon salt.
- 1 teaspoon paprika.

Cook macaroni in boiling salted water 35 minutes. Make a white sauce of butter, flour, milk, water, salt, paprika. Place a layer of macaroni in a well-greased baking dish, sprinkle with ham, carrots and seasonings. Repeat until all are used. Pour over all the white sauce. Cover top with bread crumbs and bake in a moderate oven for 40 minutes.

Dog Beats Swimming Record

Swimming 153 miles from Albany to New York, in 44 hours 52 minutes, a German shepherd dog, better known as the swimmer, has set a new record for the swim by about five hours. The dog swam two hours at a stretch and, like other swimmers, was cooled in grass.

A University of Chicago professor

invited to address a club meeting, chose as his subject "The Need of Education." The following day a newspaper headline reported "Professor's Speech Shows Need of Education."

City Nepher (in art gallery):

"The Aunt is the 'Angelus' by Millet."

Rustic Aunt (on summer holiday):

"What a waste! The man has actually copied the calendar that's hung in our kitchen for twenty years!"

The shadow of a trouble is usually

blacker than the trouble itself.

FIREPROOF

Farm Construction

GYPROC Fireproof Wallboard is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations—for remodeling—for partitioning off extra rooms—it is the most economical and satisfactory wallboard on the market.

Gypcrete protects from cold, heat, fire, sound and vermin—yet costs less than materials which do none of these things. Quick and easy to apply. It won't crack, warp, bulge or shrink. By filling the joints with Gypcrete Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gypcrete comes in broad, flat, ceiling-high sheets of gypsum—perfectly decorative—and is especially suitable for bathroom, floor joists by the insulating qualities of Gypcrete, you save for the cost within a few seasons.

Cut and fill in coupons for interesting free booklet.

NEW LEAGUE OF GREAT POWERS NOW PROPOSED

Colorado Springs Colo.—A new League of Nations composed of great powers only and including the United States, was proposed by Ralph D. Blumfeld, editor of the London Review and head of the British Journalistic Mission touring this country under the auspices of the Carnegie endowment for international peace.

The present League of Nations, he said, has become hopelessly ineffective and a danger to international relations.

Blumfeld said the League was hamstrung by its own cumbersome constitution and was now a "germ carrying talking machine, an overgrown bureaucratic debating society which is a fulcrum for every crank idea."

In its place, he proposed a League of Nations which would be the result of spontaneous agreement between Great Britain and the United States, without elaborate treaties. Each of the powers, under his plan, would keep order among the minor states.

"There's no country in the world that wants peace so much and so ardently as Great Britain," said the London publisher. "Great Britain still feels her enormous losses in men, money and material and the disruption of government and trade connections through the world. She wants a chance to recover from the catastrophe that not only overtook her but the rest of the world."

B.C. Heads Winners

Canadian Egg Laying Contest Just Completed At Ottawa.

Ottawa, Ont.—Fourteen hundred hens have just completed 51 weeks laying in the Canadian and Ontario egg laying contests at the experimental farm here. Premier honors in the Canadian contest go to a pen of White Leghorns owned by T. H. Haywood of Langford, B.C. The ten hens laying 2,374 eggs for a total of 2,824 points. W. Bradley, owner of the second pen, White Leghorns, also hails from Langford. His birds laid 2,265 eggs and secured 2,220 points. Ontario claims three titles through another pen of White Leghorns, owned by J. H. Jackson, of Port Dover. This pen laid 2,100 eggs and scored 2,178 points.

The 500 birds in the Canadian contest had laid 31,959 eggs in the 51 weeks, which now constitutes the contest year.

Arm River Election

Dr. Waugh, Liberal Candidate Wins By Narrow Margin.

Ottawa.—The government candidate, Dr. J. T. Waugh, captured the vacant seat in the Arm River by-election, having a majority of some fifty odd votes over the Conservative, Stewart Adams. Owing to the favorable weather and the unexpected interest taken in the campaign, heavy vote was polled. The total number of voters on the list is in the neighborhood of 6,000, and the total vote polled amounted to 5,017, or 83 per cent. of the possible vote.

Fight With Wolf

Chicoulet, Que.—A wolf driven from the woods by hunger attacked a 70-year-old farmer, Joseph Girard, a resident of Ste. Rose de Lima, Saguenay district. Ten minutes after he had grappled and fought with the animal, the septuagenarian won the fight and the wolf was slain. The man's only weapon was a staunch stick.

Earning Living In Circus

Paris.—The newspaper Paris Midi said that Alexander Sukkoff, youthful husband of Princess Victoria Reclamberg-type and a brother-in-law of the former Kaiser, was under contract to play in a carnival act in the Paris fair in the winter.

Decline In Unemployment

Ottawa, Ont.—There was a further small decline in unemployment at the beginning of October, when, 6,627 employers had staffs aggregating 199,551 persons as compared with 1,624,091 the preceding month.

Postpones Pacific Flight

Tokio.—Hiroshi Gotoh, Vice-Minister of War, who recently completed a flight here from Germany, said he considered the season too late to attempt a flight across the Pacific. He was decided how he would return to Germany.

W. N. O. 1787

Overcomes Gravity Force

Strange Claim Made In England By Young Scientist

London, Eng.—H. Tate, young scientist, claims to have overcome the laws of gravity, according to dispatches recently from West Hartlepool in the Daily Express.

The experiment was demonstrated in a secret laboratory test, where a piece of metal, absolutely unattached to anything—was suspended in mid-air, the dispatches said. Tate placed on the floor the metal which was said to resemble aluminum but was of a composition herefore unknown, and placed a similar piece of metal above it in the air. The top metal remained suspended—not for just a moment, but for as long as Tate felt it there.

"I have eliminated the force of gravity," Tate said. "The metal is not insulated and it is thought that the practical possibilities of the discovery are apparent. I have discovered the new force from known forces, by eliminating gravity from the metal. The composition of the metal is known only to myself, but among its possibilities is the controlling of aircraft from the ground."

Experts said that, if true, the discovery would be the greatest in centuries.

Straits Clear Of Ice

No Ice Yet Reported To Be Seen On Hudson Straits

Ottawa, Ont.—No ice is reported in Hudson's bay, according to the latest radio message from the wireless stations. A few icebergs and growlers have been seen, while there is still ice on the late shore, but in the seaway proper, the ice has not yet appeared. The Canadian government steamer, Montserrat, with the "Hull" under command of Major N. B. McLean, of Ottawa, is at present lying off Hudson's bay, at the extreme tip of Labrador. Major McLean will remain there until all navigation in the straits has been cleared.

The stringing of wireless stations along the straits and on to Churchill, in the close touch with each other, and with the Federal Department of Marine and Fisheries at Ottawa. Wireless developments have been aided by the establishment of a private station at Mistake Island, by the Hudson's Bay Company, by the American Mining Exploration Company, and another station has appeared at Baker Lake, in from Churchill Island.

New Elevator Opened

Members Of Prairie Wheat Pools Attend Ceremony At Port Arthur

Port Arthur, Ont.—Pool terminal elevator number seven, the world's largest single unit elevator, with a capacity of 7,300,000 bushels of grain, was officially opened in the presence of many members of the wheat pools of Saskatchewan, Alberta, and Manitoba at wheat pools.

A. J. McNeil, president of the Saskatchewan Wheat Producers' Ltd., officiated at the opening and with him were C. H. Burrell, president of the Pool and D. Newell, representing the Alberta Pool. The elevator is owned and operated by the Saskatchewan Pool Elevators Ltd., with headquarters at Regina. The building is 1,100 feet long, has 225 storage tanks, and 558 tier-spaces and outer space bins. The tanks are 125 feet high and the work house is 210. The work was done in the record time of 140 days from the time the first concrete was poured.

Sir Arthur Currie In France

Montreal, Que.—Sir Arthur Currie will not resume his duties as principal of McGill University for about two months, according to a cable received at the office of acting principal Dr. Charles Martin, Dean of the medical faculty. It is now expected Sir Arthur will return shortly before or during Christmas season. He has fully recovered his health and at present times is continuing his vacation in the south of France.

May Have New Trial

Toronto, Ont.—Hon. W. H. Price, attorney-general for Ontario, announced that the Crown would bend every effort to facilitate any action undertaken by Wm. J. Jenkins, of London, who was recently sentenced to prison for five years on a charge of manslaughter, towards securing a new trial, or securing his release on bail pending a revision of his case.

Chinese Found Guilty

Carlsbad, Eng.—Chung Y. Miao, young Chinese law student from New York, was found guilty of the murder of his bride, Wei Shuen Miao, here, and sentenced to death.

Wheat Pool Makes Denial

Are Not Holding Up Wheat Shipments In Order To Raise Prices

Winnipeg, Man.—E. B. Ramsay, secretary of the Manitoba Wheat Pool, has denied charges that the Canadian Wheat Pool is holding up shipments of wheat, and thus increasing the cost of flour and bread in England.

"Nobody in Canada is satisfied with the present level of wheat," declared Mr. Ramsay. "However, we are not retaining shipments, but on the other hand, are not free sellers on the present price level," he added.

From the point of view of the Canadian farmer, Mr. Ramsay continued, the British Government's low at present and "we find that the non-pool members are also of the same opinion." The non-pool members, he added, are storing their grain, awaiting acceptable prices.

World's Record Cow

Saskatchewan Cow Holds World's Championship As Butter Fat Producer

Moose Jaw.—According to official records received here a Saskatchewan cow now holds the world's championship as a butterfat producer.

She is Canary Kornblum Alcantara, and is owned by Ben H. Thompson, Boharm, who is famed throughout western Canada for his livestock records. During the past year, in a period of 305 days, the cow produced 1,080 pounds of butter fat, which is 106 pounds higher than any previous records.

Also during the official test period the champion cow produced 26,300 pounds of milk, which is an average butter fat of 4.07. The cows was milked three times a day, and was fed on green feed on Iraturn Farm, Boharm.

WOULD SHIP MARITIME COAL BY BAY ROUTE

Winnipeg, Man.—Maritime provinces were considering the possibility that Maritime coal could be shipped to western Canadian points through Churchill on the completion of the Hudson's Bay Railway, Isaac J. Logan, K.C., of Amherst, N.S., newly appointed director of the Canadian National Railway, stated here.

Mr. Logan said that serious opposition to the Hudson's Bay Railway project had never developed in the Maritimes and there was a feeling which he shared that whatever might be the success of the route for grain shipments the development in mining and colonization which it would encourage, would justify its construction. It had been one of the fortunate aspects of railway construction in Canada that some development had always taken place to justify the work.

Those interested in shipping Maritime coal to Churchill believed that many grain boats would be going back to the Bay which could stop at Sydney, Cape Breton and take on loads of coal.

Mr. Logan said Canadian National officials would confer with the Canadian Pacific Railway with respect to the Peace River Railways as soon as Sir Henry Thornton returned from the work house. He was convinced, he said, that the Peace River District formed a very important part of Canada and he hoped the "negotiations would be successful." He had been asking about the likelihood of the C.N.R. joining the C.P.R. in the ownership of the Alberta Northern Lines. Sir Henry was expected back during the next two weeks.

INTERESTED IN HANDLING OF GRAIN CROPS

Four Killed In Plane Crash

Tucson, Ariz.—Four youths are dead here following a crash when a Ryan Broughman monoplane plunged against the side of a mountain while in full flight. The crash occurred when the plane, soaring over the Catalina mountains in search of Bill C.P.R. 1st, reported the hit on an air pocket. The ship caught fire after crashing and was demolished. Its occupants were burned to death.

COLONIZATION PROBLEMS

Chief Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who, for over fifty years, has been active in Canadian land settlement. An outstanding authority on Canadian immigration and colonization problems, he has recently concluded important reports for the British Government for the movement of British settlers to Canada.

COL. J. S. DENNIS, C.M.G.

Chief Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who, for over fifty years, has been active in Canadian land settlement. An outstanding authority on Canadian immigration and colonization problems, he has recently concluded important reports for the British Government for the movement of British settlers to Canada.

Planning New Air Routes

Russia Wishes To Supplement Inadequate Railroad Service

Moscow.—More than 5,000 miles of new air lines will be opened in Soviet Russia next spring by the Soviet Air Transportation Company—"Delbrol." The planning work is under way. The lines in every case are being laid out to supplement inadequate railroad service in the east and southeast.

Siberia, for the first time, will be connected with the European network of passenger and mail air routes, which now extend to the east coast. A daily service, 2,000 miles eastward to Irkutsk, near the Mongolian border, will be started in May in co-operation with the German Luft Hansa. With night flying, the distance will be covered in from 26 to 30 hours. It now takes five days by train.

Another air line will connect Alma Ata (where Lenin Trotsky is in exile) with Novosibirsk over the routes of the uncompleted Turkestan-Siberian railway. Several new lines are planned in the Volga Valley. German Junkers planes will be used up to all the lines.

Federal Assistance Needed

Premier Tolmie Of B.C. Thinks Government Should Aid In Building Roads

Vancouver, B.C.—The Federal government should again initiate the policy in effect between 1919 and 1925 whereby the provinces could earn grants of assistance in building trunk roads, Premier S. P. Tolmie said in the course of an address to the Vancouver Board of Trade.

The Premier said it was time the Federal government recognized the trend of modern times and give assistance to the provinces in the matter of roads. The Dominion government, he remarked, through the post-office and other departments was one of the biggest users of roads.

Four Killed In Plane Crash

Tucson, Ariz.—Four youths are dead here following a crash when a Ryan Broughman monoplane plunged against the side of a mountain while in full flight. The crash occurred when the plane, soaring over the Catalina mountains in search of Bill C.P.R. 1st, reported the hit on an air pocket. The ship caught fire after crashing and was demolished. Its occupants were burned to death.

Holding Swine Club Tests

Winning Teams Will Go To Royal Winter Fair

Winnipeg, Man.—Preliminary arrangements have been completed by the Canadian National Railways for the interprovincial boys' and girls' swine club competition, which will be held on November 21, at the Royal Winter Fair, Toronto. Six provinces will be represented this year and the results of the provincial competitions will decide the teams which are to go to Toronto.

Teams from each province will be the guests of the National swine club during the week of the Royal Fair, and the entertainment of the boys and girls will include a trip to Niagara Falls and a visit to the Donalda Farms, just outside of Toronto.

In the past two years teams from Red Bank, Manitoba, have won and successfully defended the W. D. Robb Trophy, which is emblematic of the swine club championship. The cup is held by the winning team for one year. Gold medals are presented to the winning team from each province.

Will Dredge For Gold

Syndicate Will Operate On River Near Medicine Hat, Alta.

Medicine Hat, Alta.—A syndicate composed of local men, assisted by Vancouver and United States capital, has leased ninety miles of river from below this city and is conducting tests preparatory to dredging the river. Some thirty years ago there was considerable activity of this nature along the river, the old hand panning process being followed with returns averaging four dollars a day for experts. George L. Holmes, San Francisco engineer, is in charge of the tests.

JOURNALISM OF TODAY IS OF A HIGH STANDARD

New York.—Frank B. Noyes, of the New York Times, president of the Associated Press, told a group of representative industrialists here that newspapers as a whole were worthy of the confidence of their readers.

Speaking at the fifth annual conference of major industries held at Columbia University, Mr. Noyes said he thought everyone familiar with journalism in the last fifty years would agree "that in accuracy of statement, in breadth of information, in ethical standards, there had been a steady progress upward."

Mr. Noyes, appearing as the representative of the publishing industry, said that the reports of newspapers and press associations did contain "many inaccuracies" since they were the products of human beings, but he gave assurance that the industry was to fairly and accurately depict the situation described.

He defended modern journalism from forms of attack and criticism, which he said were unjust and unwarranted.

"As I am an ardent conscious of the fact that we are doing our level best day in and day out, to keep in the middle of the road, having no partiality for any party and church, any economic theory or any cause or man whatever, and on the other hand no hostility to any of them."

"I know that this is true of the Associated Press, and I believe it is also true of the other large press associations."

"There have been venal newspaper men as there have been venal doctors, lawyers, business men and even politicians, but God be thanked that the newspaper crooks are few and far between."

REPORT ON WORK AT CHURCHILL FOR THIS SEASON

Ottawa, Ont.—The department of railways and canals soon will issue a statement giving full particulars of the season's work at Port Churchill. S. W. MacLachlan, chief engineer of the department, has just returned from an inspection tour of the statement will be based upon his report.

It is understood that the construction on the harbor works is proceeding and the entire program for the season was accomplished.

The port will not be ready for shipping as quickly as the railway, but this is said to be unavoidable unless the government spends a large sum of money in overcoming the difficulties in building a port in the present inaccessibility of the harbor.

When the railway is completed it will be easier to take in supplies and workmen.

There were no accidents this season and the department is pleased with the progress being made.

Five Thousand Miners

Remaning In Canada

Have Until February To Return Under Special Arrangements

Winnipeg, Man.—Of the 8,000 British miners who came to Canada this year to work in the harvest fields under government auspices, 3,000 have returned to their homes. The officials concerned in their handling.

A considerable number still are in Winnipeg waiting for jobs in their various trades. The government has arrangements for those still in the country have been arranged in many cases.

The special arrangements for those which the men were brought over permit their return to the Old Country up to next February, after which official responsibility will cease.

Would Use Submarine To Explore Antarctic

Wilkins Hopes To Have Assistance Of British Government

Montevideo, Uruguay.—Antarctic exploration by submarine is a possibility which is being considered by Sir George Hubert Wilkins. He spoke of this just before his departure here on the Humber for the expedition to the Antarctic.

He indicated that it might be two years before he was ready to undertake the expedition, but that he hoped the British government would then be willing to aid him. He said that the expedition would gather data on ocean currents and sea life and meteorology.

Clean Law Administration

British Columbia Will Not Resort To Use Of "Stool Pigeons"

Victoria, B.C.—"Stool pigeons" must not be employed by British Columbia police in the enforcement of a policy announced by Hon. F. H. Poole, attorney-general.

"The police of this province are going to operate on a clean, above-board basis and the use of stool pigeons will never form a part of their methods," Mr. Poole said, adding: "The police will never use agents to persuade persons to break the law in order to get convictions. Practices of this kind cannot be tolerated."

Want To Find Owners

Public Right to Know.—The States government has managed forces, with District Attorney Monaghan, who is directing the grand jury investigation of run rummers and police underlings in his efforts to identify the mysterious owners of 16 bank accounts, totaling nearly \$12,000. Monaghan believes the money was deposited by bootleggers, and the federal government wants to determine whether in some cases were paid on funds.

U.S. Residents Here Can Vote

Toronto, Ont.—United States citizens resident in Canada have the right to exercise their franchise in the approaching presidential election, it was stated at the Toronto consulate here. They will be permitted to vote at the various United States consulates throughout the Dominion.

Ottawa.—An official inquiry into the wreck of the Western Canada Airways plane, which took five passengers a crash near Calgary, will be followed by the High Bridge air station. It was announced by the Department of National Defense.

CHAMPION CHATTER

VOL. 1

Thursday, Nov. 1, 1928.

No. 38

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEUE, Editor.

EDITORIAL
At a banker's dinner which Bill Ryan was attending one time a banker read a very puny poem which, he had written, and nothing was done about it. But just let a poet write a bomb check and watch Ryan get busy.

The first Zeppelin has landed safely at its home port thus completing the longest, hardest, most thrilling battle in the history of aviation with the aid of Vesol oil, the same Vesol we recommend to our customers.

Post Mortem
The day after Halloween the average merchant wishes there was no such thing as soap.

It's mighty tough to have to live in bed and

"Good Education Makes a Good Farmer Better."

particularly at this season. Tom Geddes has our sincere sympathy. "There would be no objection to boys being boys if they would only be men when they grew up," says a Champion lady.

Swift sure selections of the station wanted by means of the One Control Knob. Keen selectivity provided through the four-in-a-kind condenser arrangement. Room-filling volume or a whisper of sound without the least "chickens" hissing or distortion. The really wonderful built-in speaker, assures faithful reproduction at any volume—That's the Marconi way.

All that glitters is not gold. If you don't believe, take a look at the seat of your old man's pants.

We join with many others in extending our best wishes to the

newly-weds, Mr. and Mrs. J. Hunzinger.

Fill Poem
Said he "I love your eyes of blue,
Oh kindly be my queen."

That would have been a lovely speech, Except, her eyes were green.

We were just wondering the other day what had happened to a member of our teacher friends, west of town, when it suddenly occurred to us that it was long year.

One small jack can lift a car but it takes a lot of jack to keep it up. It seems to us that the campaign across the line is a radio noise in which throwing the ball is an important feature.

Organize Athletic Ass'n.

The Champion high school boys have organized an Athletic Association to compete with the neighboring towns in basketball, hockey and track meets.

The basketball has organized and with Fred Puszy as its captain seem to be doing favorable work. On Tuesday, Oct. 30 the team visited Carmanagay. Many rooters for the visiting team were present to see the game end with the score tied 11-11.

It was too dark to play the tie off, so Carmanagay will play at Champion on Saturday afternoon, Nov. 3rd at 3 P. M.

Come on. Let's all go and give the boys a real boost. Everybody!

High School Lit. in Action

The Champion high school Literary Society held its first meeting of the term in the church last Friday afternoon. The new officers installed were:

President—Gordon McLean.
Vice President—Allan McCullough.
Sec. Treas.—Edna Orr.
A good program followed, consisting of:

1. A piano solo by Rheta Campbell.
2. Play entitled "Dead Uncle Zed," by Senior Room.
3. Selections by R. S. Sextette.
4. "The Little of the Lit," editor—E. Fisher.

Local and General

Geo. Taylor spent Wednesday and Thursday in Calgary.

The Ladies' Aid will meet at the home of Mrs. Nell McLeod on Thursday, Nov. 8th.

J. Long, J. H. Beaubier, F. Racher and son are on a hunting trip west of Edmonton.

Mrs. J. M. Moffatt and family arrived home from the east on Monday, after an extended visit.

Mr. and Mrs. W. C. Hoskins and Miss Rheta Campbell were among those who took in "Rose Marie" at Calgary.

Mr. and Mrs. Orville Harper, Mr. and Mrs. H. C. Jopling were in Calgary on Wednesday night to hear "Rose Marie."

J. F. Hardisty, who has been here for the past two months looking after his farm interests, left for Spokane on Thursday night.

Price of bacon again down this week. Side bacon at 25c per lb. by the piece, 40c per lb. sliced, at the Champion Meat Market.

Thos. Geddes was taken to Calgary on Wednesday for an operation for appendicitis by Dr. and Mrs. Freeze. The latter intended seeing "Rose Marie" while in the city.

The Women's Institute dance on Halloween night was a decided success and was highly enjoyed by the large number present. The music was particularly good as furnished by the Johnny Anderson orchestra.

Messrs. Alex and C. D. McDougall, Brown McDonald and J. Carlson were successful exhibitors at the Calgary Stock Show and Sale during the week. Pressure on the time of the staff necessitates holding particulars over.

Halloween was duly observed. Championites of tender years and otherwise. The one main street was temporarily out of commission owing to a wonderful collection of implements of various kinds. Less damage of an objectionable nature was perpetrated than has been the case for some years past.

A meeting of the Curling Club will be held in W. C. Hoskins' store on Tuesday evening, Nov. 6th, at 8 o'clock. A general turnout is requested as the business to be taken up of extreme importance, and as the season is nearly here further delay would result in seriously impairing the success of the club for the year.

K. R. McLean, R.O. of Anderson and McLean, Night Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, Nov. 23rd. At the Drug Store.

Women's Institute

Change Date of Meeting

By order of the advisory board of the Champion Women's Institute the next meeting of this branch will be held on Tuesday, Nov. 6th instead of the 13th, at the home of Mrs. Sommers.

R. I. Baker will deliver an Armistice address, and this alone should be an inducement to every member to attend. Roll call answered by Armistice quotations.

Numerous items of business

S. Barnes of the Dominion Experimental Farm at Swift Current has been experimenting largely for some years in measurements of the moisture contents of the ground after heavy winter snowfall and has reached the conclusion, contrary to general acceptance, that there is very little gain from the snow, and sometime none. It is quite possible that different results might be arrived at by an experiment in this part of Alberta in some seasons, but in winters when the ground is frozen to a considerable depth there is little doubt the same conclusions would be reached as in Saskatchewan where the measurements were made. According to this summer rains continue to be the real source of moisture necessary for the crop unless there is sufficient precipitation in the fall before freeze-up to provide a reserve.

Two papers in one—The Family Herald and Weekly Star, Montreal—one for the farm, the other for the home, both of superior excellence. One dollar a year covers the subscription, or three years for \$2.
